

Herp Ease Tincture

The Herp Ease Tincture is a powerful aid for cold sores and herpes outbreaks, by Da Lua Herbals.

It accelerates the healing and scarring process and lessens discomfort and pain. This blend of herbs reduces the severity and/or frequency of cold sores and fever blisters.

Applied topically at the first sign of a cold sore or used internally by diluting drops in liquid (water, tea, juice).

Ingredients

Organic echinacea, burdock, calendula, lemon balm & peppermint macerated in organic alcohol.

Contraindications

Avoid during pregnancy and when breastfeeding.

Dosage & Use

7 drops after meals, 3x a day, as soon as one starts feeling symptoms of herpes eruption. Stop once the eruption is receding.

For internal use: Place drops in a glass of water/juice/tea or directly under the tongue.

For external use: apply over the herpes eruption (also 3x a day)

Shake well before use.
