

Menopause Tincture

Menopause Tincture from Da Lua Herbals lovingly soothes the transition to and symptoms of menopause

An all-in-one medicinal herbal tincture to help **realign the body** in times of hormonal **fluctuation** in the transition to menopause, as well as support of the female reproductive system. This blend may help ease the uncomfortable symptoms associated with menopause: hot flashes, low libido, weight gain, disturbed sleep, and mood swings. Let it help you to make this transition as smooth as possible so you can continue being the goddess you are. Since the selected herbs act as **adaptogens** in the body, they may help to **naturally regulate hormones** in times of misalignment, without the use of pharmaceuticals or harsh chemicals.

Using herbal tinctures to address issues at their **source** rather than suppressing individual symptoms can make a massive difference in quality of life. That's why Da Lua Herbals is committed to having a **plant-based product** to attend to symptoms of hormonal imbalance at their root cause such as mood swings, anxiety, bloating, abdominal pain, night sweats, hot flashes, irritability, hormonal acne, and more.

Ingredients

Organic sage, oat, hops, lavender, liquorice, sarsaparilla, alfalfa, and vitex macerated in organic alcohol and solarised spring water.

Dosage & Use

Suggested Use: Take 1 full dropper in the morning and another at night, for 3 weeks straight. Take a 1-week break and resume.

For optimal results, continue for 3 months.

Shake well before use. Place drops in a glass of water/juice/tea or directly under the tongue. For internal use.
