

# Mosquito Repellent

---

Da Lua Herbal's Mosquito Repellent is a plant-based bug repellent spray.

Beautiful amber glass bottles filled with pure, natural herbal extracts. Repel bugs naturally **without toxic chemicals!**

This mist is infused with organic **plant tinctures** and a blend of **essential oils** that will repel mosquitoes, gnats and other flying pests. For best results spray it on clothing and hair so the scent lasts. Spray to fill your space, your pillow, a blanket or really anywhere you'd like. The scent is not offensive but rather **minty and woody**, a little like a herb garden.

## Ingredients

---

Organic tincture of geranium and lemongrass, distilled water, lavender hydrolat, 96° alcohol, and essential oils from lemongrass, clove, lavender, and geranium

## Dosage & Use

---

Shake well before each use, to combine the mixture and get a homogenous blend.

It can be used on skin, towels, bed linen, curtains, handkerchiefs and clothing before or after ironing.

Spray it over your body or around your home. It's a handy, discreet size to take with you on your travels too.
